Marketing Management

What do know about Marketing

Marketing

Though selling and sales promotion are integral part of marketing, they are not everything

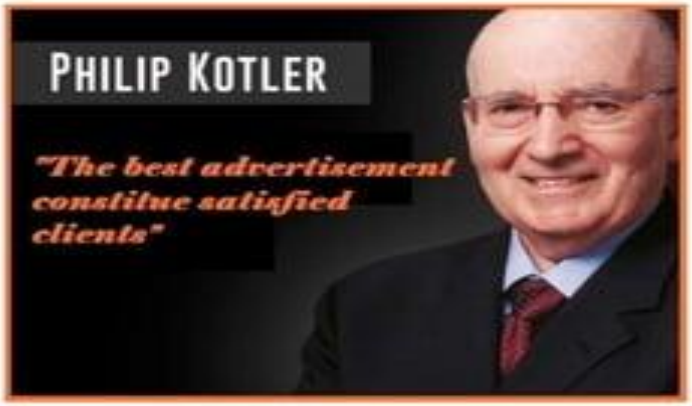

Therefore marketing is a broader term and is concerned with the identification of needs and wants of consumers and finding out ways and means for satisfying them

Marketing

Definition:

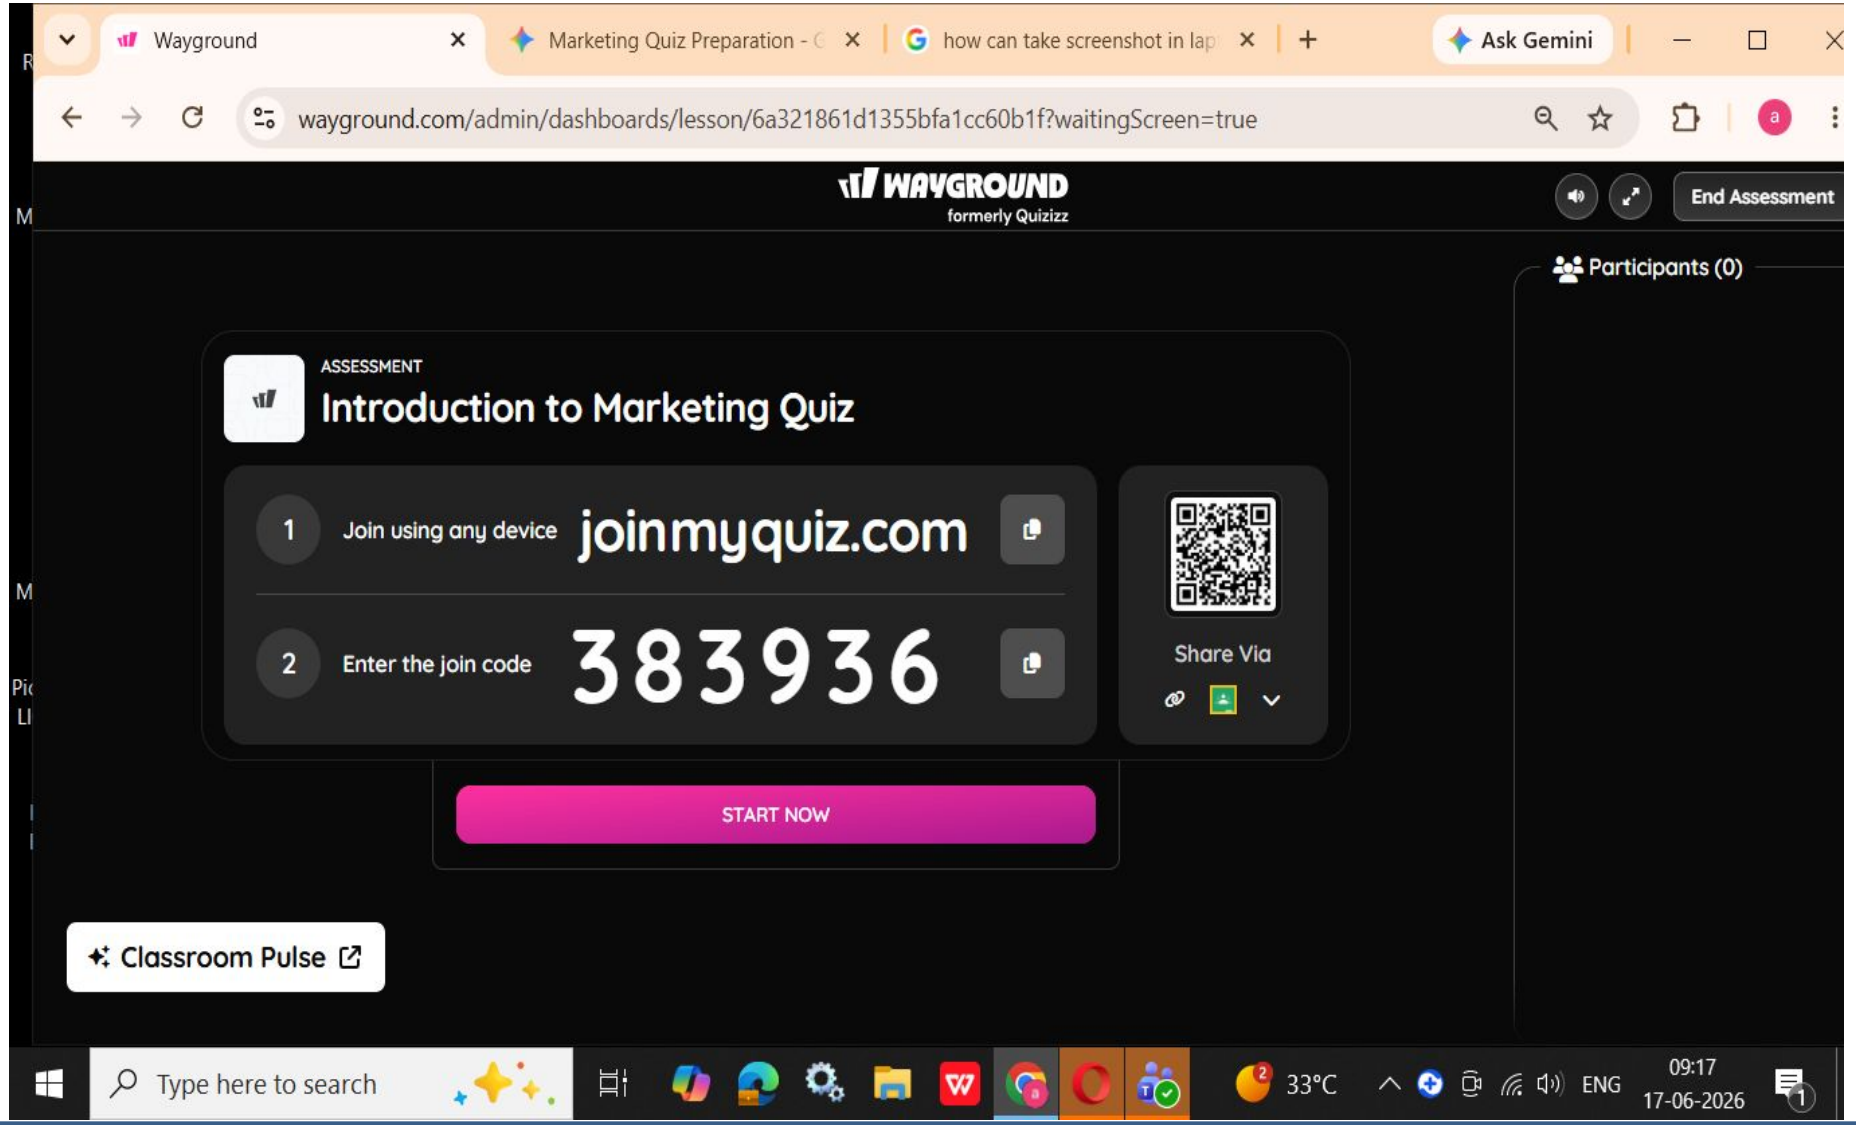

"Marketing is a social process by which individuals and groups obtain what they need and want through creating, offering and freely exchanging products and services of value with others"

– Philip Kotler

- Information

WHO IS A MARKETER ?

A person who takes more active part in the process of buying & selling of goods.

Features of Marketing

1. Needs and Wants

Marketing process helps the people in getting what they want

The focus of marketing is on the satisfaction of their needs and wants

A marketer's job is to identify the needs of consumers and develop products or services accordingly

Features of Marketing

2. Creating a market offering

Market offering means a complete offer of a product or service

While offering products to customers, it should include the features like size, quality, taste, price, availability etc.

Features of Marketing

3. Customer value

Consumer buys a product based on its value to satisfy their need

Eg: Mouth Freshener in Toothpaste

So the marketer should always add value to his products, so that the customer prefers it

4. Exchange Mechanism

It refers to a process through which two or more parties come together to obtain the desired product or service from someone, in return making a payment to the other

Trend Feature	Company Example	How It Works in Practice
• AI Personalization	NetflixIt	analyzes individual viewing habits to customize the artwork and recommendations on your homepage.
• Interactive Content	Sephora	It uses virtual artist augmented

reality tools so users can try on makeup digitally before buying.

- Omnichannel Integration — Starbucks lets you order ahead, pay, and track loyalty stars across mobile and in-store smoothly. — Its rewards app

Marketer or Seller

Marketer refers to any person, who takes a lead role in the process of exchange

Normally it is the seller

Consumer seeks satisfaction by consuming products and services, whereas the marketer provides satisfaction by offering products

Marketer or Seller

Marketers creating new needs in the minds of consumers like use of washing machine, vacuum cleaners, cooking range, mobile phone etc.

Some of these products become the 'part and parcel' of our life, but many of them were unknown to the older generations

Marketing Management

Marketing management is the functional area of management concerned with planning, organizing, directing and controlling the activities related to marketing of goods and services to satisfy customer's wants

Marketing Vs. Selling

Marketing	Selling
1. Customers Needs	1. Sellers Needs
2. Begins before production	2. Begins after production
3. Product planning and development	3. Sale of goods
4. Customer oriented	4. Product oriented
5. Profits through consumer satisfaction	5. Through sales volume
6. Seller beware	6. Buyer beware
7. Macro approach	7. Micro approach
8. Long term perspective	8. Short term perspective

Process of Marketing Management
1. Choosing a target market
2. Create demand for the product
3. Create superior values

Marketing concepts
(Marketing management philosophies)

Philosophies → / Basis ↓	Production concept	Product concept	Selling concept	Marketing concept	Social concept
Starting point	Factory	Factory	Factory	Market	Market, Society
Focus	Quantity	Quality	Existing product	Customer needs	Customer needs and welfare of society
Means	Availability of products and affordable prices	Product improvement through better quality	Selling and promotional measures	Integrated marketing (Selling of satisfaction rather selling a product)	Integrated marketing
Ends	Profit through volume of production	Profit through quality products	Profit through sales volume	Profit through customer satisfaction	Profit through customer satisfaction and welfare of society

Functions of Marketing

1. Gathering and analyzing market information

This will help to identify the needs of customers and can take vital decisions

It is highly useful for analyzing opportunities, threats, strength and weakness of the firm

Functions of Marketing

2. Marketing plan

A proper marketing plan should be developed to achieve the marketing objectives of the firm

E.g., To increase the market share of a product in next one year by 20%

Functions of Marketing

3. Product designing and development

The product should be developed and designed to meet the customer needs

Product Design

Hand Wash

Soap

Marketing department should always be on the look out to make necessary changes in the product such as packing, price, size, colour, shape and design

Functions of Marketing

4. Standardization and grading

Standardization refers to producing goods in predetermined standards such as quality, price, packaging etc. which ensures uniformity and consistency

So that buyers need not inspect, test and evaluate such goods in their future purchases

Grading

Grading is the process of classifying products into different classes on the basis of quality, size, weight etc.

It is needed in agricultural products

This helps in realizing higher price for better quality

Functions of Marketing

5. Packaging and Labelling

Package is a container or a wrapper or a box in which a product is enclosed

It is done for protecting the goods from damage in transit and storage, now a days it is also used to establish the brand

Labelling

Labelling refers to designing and developing the label to be put on the package to give the specifications of the product in the package

Functions of Marketing

6. Branding

It is the process of giving a name or symbol to a product for identifying and differentiating it from the products of competitors

E.g., BMW, TATA, JIO, Pears, Coco-cola etc.

Functions of Marketing

7. Customer support service

These are after sales services, handling customer complaints, maintenance services, technical services and customer information

All these will provide maximum satisfaction to the customers.

Functions of Marketing

8. Pricing

Price of a product means the amount of money that have to pay to obtain a product

A sound pricing policy is an important factor for selling the products to customers

The pricing policy of a firm should attract all types of customers.

Functions of Marketing

9. Promotion

It means informing the customers about the firm's products and persuading them to buy these products

Promotion techniques include advertising, personal selling, sales promotion and publicity

Functions of Marketing

10. Physical distribution

It involves planning, implementing and controlling the flow of materials and finished goods from the origin to the point of use to meet the customer requirement at a profit

A suitable distribution channel must be selected by the marketing management in this regard

Functions of Marketing

11. Transportation

It is an integral part of marketing as it helps in making available the product at the terminal point of consumption

Functions of Marketing

12. Storage or warehousing

Goods are produced in anticipation of future demand

They have to be stored properly in warehouses to protect them from damages

Role of Marketing

1. Role in a firm

Marketing plays a significant role in achieving the objectives of a firm

It emphasizes that customer satisfaction is the key to survival and growth of an organization

Eg: What products or services will be marketed by a firm will depend upon what do its customers need

Role of Marketing

2. Role in the Economy

Marketing plays an important role in the economic development of the country and helps in raising the standard of living of the people

It also accelerates the economic activity leading to higher incomes, more consumption and increased savings and investment
